manuscript type: Regular

"Virtual Personal Assistant using RPA, AI and Python"

Authors: Gautam, Pranav; Patidar, Vivek ; Kapse, Prasanna

30-Apr-2022

Dear Mr. Gautam,

Thank you for submitting your manuscript to IEEE Intelligent Systems. Please consider this notification as confirmation that your manuscript has been received. We will contact you if we have any concerns or questions regarding your manuscript's compliance with our submission guidelines. If your manuscript is compliant, we will simply process your submission and forward it to the editor in chief for consideration.

If this is a regular submission, please bear in mind that our current acceptance rate for unsolicited manuscripts is under 10%, and that we have a backlog that makes it impossible for us to accept everything we might want to, even if it is of high quality.

****Attention:** Please do NOT attempt to resubmit any files or information in ScholarOne Manuscripts, as this will produce duplicate entries of the submission. If you find that you have made an error in the submission of your manuscript (i.e. uploaded the wrong file or selected the wrong issue designation) please contact me for assistance and further instructions.**

While your manuscript is undergoing review, you may also submit it in its current form to TechRxiv, IEEE's preprint server. By uploading your manuscript to TechRxiv you can quickly disseminate your work to a wide audience and gain community feedback. Any comments you receive on the TechRxiv submission have no bearing on the peer review process. Submit your manuscript at <https://www.techrxiv.org/>.

If you have any questions regarding our policies or procedures, please refer to the IEEE Intelligent Systems Author Center found at, <http://www.computer.org/mc/intelligent/author.htm>. Thank you for your support of this publication.

Sincerely,
Mrs. Sarah Williams
Administrator
